

## Two Way Radios for Events & Venues

There's nothing like the thrill of watching an event unfold like clockwork before your eyes. It's a great feeling to see everything working at its peak.

Constant, instant communication is key to a smooth operation. An event without radio-equipped staff is like a puppet show without strings - it's those strings that keep you and your teams in sync, ready to respond to any circumstance.

2 way radios are a vital communication tool for any event, from a national sporting competition to a local nightclub or school fete. They empower you to make crucial decisions at a moment's notice, and your staff to respond instantly as circumstances change.

2 way radios helps keep every aspect of your event at your fingertips. From catering and maintenance, to security and safety, parking and traffic control, 2 way radios are now a key resource.

- 2 Way Radios offer 1 to 1 & 1 to many conversations.
- Unlike a cell phone, 2 way radios provide instant communication.
- Event sizes and venues change for each project. Renting offers the flexibility and cost effectiveness necessary to operate efficiently.
- Rather than purchasing substandard equipment, renting gives you the option of working with the best technology.
- Renting offers full tech and customer service support.

## EventTone can provide your company a fully supported system tailored to your unique event

EventTone Wireless equipment is used at events across the US. Whether it's a major sporting event, a concert tour, film or television production, festivals, fairs, a theatrical tour, security, tradeshow or conferences, renting from EventTone offers you:

- State-of-the-art equipment.
- Small to large area coverage options
- Multiple channel/frequency options
- Calibration of frequencies to match your existing equipment.
- Local and/or coast-to-coast capability, depending on your business needs.
- Temporary repeater installation in buildings where dead spots normally occur.
- Zero maintenance cost.
