

2 Way Radios & “Walkie Talkies” for Retail, Warehouse Stores and Distribution Centers

In a retail operation, such as a larger store, warehouse club or shopping mall, enabling your workforce to stay in constant contact and to communicate quickly and efficiently with each other is one of the most difficult challenges you may have to face. With security concerns so prevalent in all public spaces today, improving communications is essential for improving safety, reducing losses and increasing overall productivity. EventTone Wireless has conferred with the top manufacturers in the wireless industry to offer you the perfect communications products and solutions for every retail operation and distribution center.

Imagine equipping your customer service, loss prevention, and maintenance staffs with two-way radios so they can communicate easily and cost-effectively with each other at all times! Now you can. EventTone Wireless is proud to offer solutions that are:

- User friendly
- Feature Rich
- Durable
- Lightweight portability

Most importantly, this radio is priced economically and won't break the budget! Even

with a limited investment, retail stores and distribution centers can afford a quality wireless communications system that will promote productivity and enhance security.

Would you like to move your communications into digital? EventTone Wireless can offer your company outstanding digital products for less than \$150.00.

Rental Solutions

If your need is temporary or you just don't have the budget right now to purchase your radios, you may want to consider renting. EventTone Wireless offers an array of short and long term rental solutions which include everything you need.
