

## EventTone N55 Network 2 Way Radio

### Communicate...Anywhere!

Designed with productivity and functionality in mind, the EventTone N55, Network radio utilizes nationwide cellular technology and classic two-way radio features and built it for business. Featuring a Large LCD Display and Quick Keypad, the N55 is designed to keep your team, no matter how large or small, connected locally, city wide or nationwide.

### Features

- Unlimited Device Connectivity
- GSM/WCDMA/CDMA based Technology
- Multiple Talk Groups & Private Calls
- GPS built-in, Track and Trace
- Nationwide Coverage
- LCD Display & Programmable Soft keys
- Unlimited Call Groups & Users
- Contact & Call Lists
- Cloud Programming and Management
- Tough, Durable Construction

### Superior Audio

The EventTone N55 utilizes narrowband codec and digital error correction technologies, while employing a full-size front-facing FST 1W speaker, combined with unique features such as Intelligent Audio and customizable voice announcement to help you hear and speak clearly wherever you work.

### Large LCD display

Features a larger pixel aperture color display with a flexible, menu-driven interface. Icons and

large easy-to-use navigation buttons ease message reading and menu navigation.

### Connectivity & Collaboration

The EventTone N55 works seamlessly with our Desktop Dispatch Center & Android App. Create contact lists containing Group and Individual ID's for quick connection.

### GPS Built-in, Track & Trace

The EventTone N55 supports viewing of GPS positioning information and sending of GPS text message, providing higher precision at lower cost, to enhance the safety and accountability of your team.

### Great for any Industry
