

Let us solve your biggest worries for you...

Unauthorized Use

Depreciation

Vehicles can depreciate by as much as 40% a year depending on hours in service.

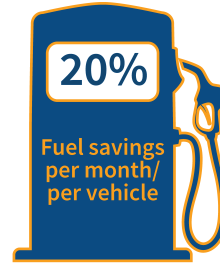

Liability

If your vehicle is involved in an accident, you could be held responsible.

Linxup alerts you when vehicles are used outside of authorized hours or locations so you can protect your investment and business.

Saving Fuel Costs

Tracking idling, speeding, and find the most efficient routes can save you up to 20% per month on each vehicle in your fleet.

Stolen Vehicles

The average fleet experiences 2 stolen vehicles per year

38% of fleets report up to \$20,000 in losses due to driver downtime because of stolen vehicles

OUT OF SERVICE

With constant location tracking and immediate alerts for when vehicles leave designated locations, you greatly increase your ability to locate stolen vehicles.

Maintenance Requirements

Electronic Records

No more whiteboards or hand-written logs.

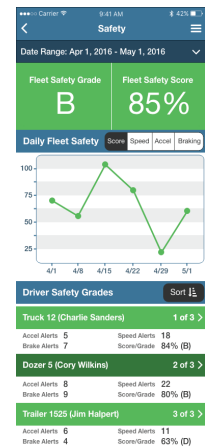

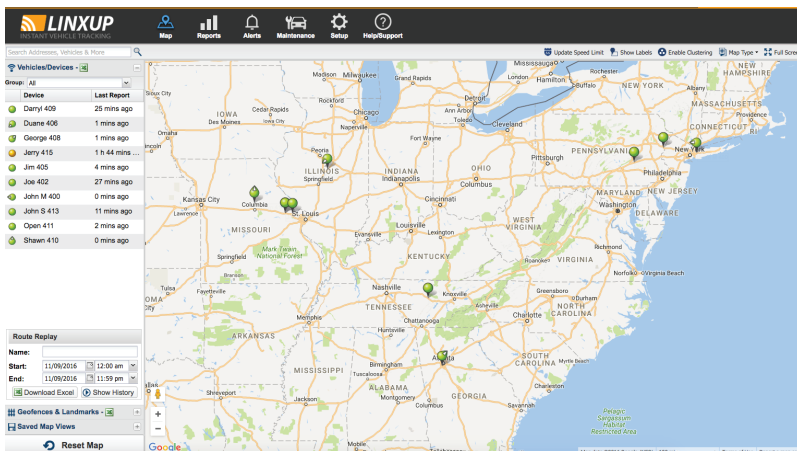

Eliminate Yard Checks

No more trips to job sites to make sure your fleet is being rotated and used properly.

Tracking actual hours of service helps you schedule maintenance based on actual use. With Linxup, you can make your fleet as reliable as you are.

Manage Your Entire Fleet From Your Desktop or Mobile Device
