

Dear Anthony,

Thank you for your partnership and for representing NEXTEL. Our mission is to offer enterprise and government wireless communications focused on traditional push-to-talk capability, GPS tracking, and workforce productivity applications. You may be familiar with our brand name and we believe it is key in customer residual goodwill as well as telegraphing to dealer and end users our business in one single word.

I want to take the time in this letter to introduce myself and reach out to you to tell you that I am available to you and anytime should they have any technical or operational questions. Of course as the company grows technical support staff will come and go but I will always take the time to get you and your dealers any information and service related material needed. I have listed my personal mobile number and email below and I am always just a call or email away.

We are pleased to be able to have Don Anthony Enterprises bringing Nextel solutions to dealers and customers around Indiana. We cherish the relationship with you and your company and believe strongly that you have a very important role to play in bringing success to everyone involved. We wish Don Anthony Enterprises all the success you hope to achieve. Your role is integral to connecting the dots and helping EventTone Wireless and its sister company, Fleet Cellular benefit from the outstanding NEXTEL brand and the wonderful reputation that precedes it.

Again from all of us at EventTone Wireless and Nextel, we extend our gratitude to you and want to let you know our support is with you, your staff and their customers whenever they need it. Please contact me personally if you have any questions on our products and services.

Sincerely,

James DeRosa
Principal
EventTone Wireless
