Color correction

- Once there you will notice the highlighted blue icon listed as "nextel: off"

- Click on this icon to move forward

- You will then notice that there is a switch that needs to be turned on.

- Go ahead and click "Use service"
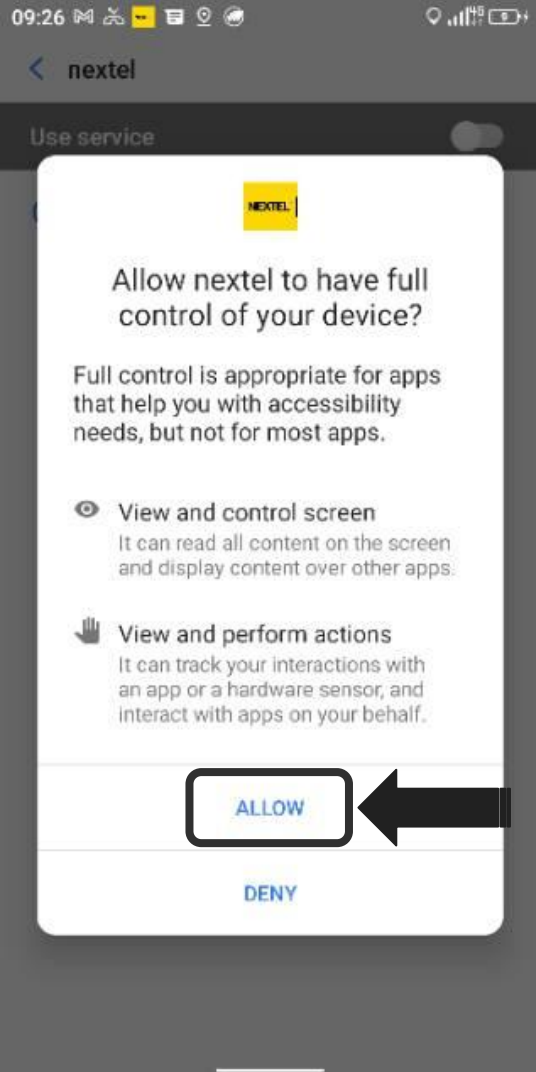

- When "Use service" is clicked you will be prompted with this message

- Read through this portion if you would like, and click "ALLOW"
  - This will prompt your device to use our PTT without while phone is locked and app is open in the background

- After all of these steps are completed you are free to use our PTT feature until your heart's content

- Thank you so much for using Nextel as your one stop shop for communications!
